

Brick Techniques STEM Basics with LEGO®

Join Brick Tech as we introduce your child to STEM basics by building guided projects out of LEGO® pieces! Each LEGO® project will showcase relevant STEM concepts, such as a motorized car to discuss gear drives or a skyscraper with bricks to introduce overlapping construction, to foster hands-on learning for participants. One project will be introduced each day of class and students will have the remaining time to build, discover, and learn with additional LEGO® pieces. Come explore the basics of STEM this winter and spring with Brick Tech! There are no prerequisites for this class.

**FRIDAYS,
JAN 6 - MAY 12**

OMIT: JAN 27 FEB 24 MAR 10 APRIL 7

3:30PM-4:45PM

GRADES: K-2ND

**REGISTRATION FEE: \$420
(15 SESSIONS)**
