

# Future of Robotics with LEGO Spike Prime®

Join Brick Tech as we design, build, program and test robotics projects with the newest materials that LEGO® has to offer, Spike Prime! All participants will get hands on learning experience as they are introduced to STEM and programming concepts. Everything will be provided from tablets for programming, Spike Prime Robotics materials (motors, sensors, brain brick), and more LEGO® bricks and pieces than they could ever build! Don't miss this opportunity to explore and create the future of robotics with Brick Tech!
